

Guidance *through* Mastery

Guidance *through* Mastery

The credo of Saviesa

The first element - Guidance...

We work to understand you and your expectations. We listen to you... the spaces you want to build, the form and function you desire. We grasp your likes, your style, your thinking.

Then we help you bring your dream to life. By design thinking that captures the practical while freeing the beauty. To lessen your strain, and make the journey joyous.

And the second - Mastery...

We study and experiment constantly, in each subject in our field. We scour the world for the best materials. We interrogate experts in materials, machining, ergonomics, culinary sciences, quality control. We punish our products more than you ever will. And we test them daily in real life... in homes, hotels, offices.

We master... so we can help you bring your dream to life.

At Saviesa...

We guide you... through mastery of our field.

How we GUIDE you to achieve your dream home

Gather

We listen to you. We ask key questions, we note your requirements, we elicit your expectations, we perceive your style.

Understand

We comprehend and analyse your functional requirements, your aesthetic aspirations and your emotional needs.

Ideate

We develop initial concepts and share them with you to outline your dream space and get your feedback.

Design

We develop and detail the concepts into thorough finished designs and quotations to match your need and budget.

Execute

We execute flawlessly, so what you've seen is what you get. Manufacture at our own facilities, delivery and installation – all done on time.

3 exciting innovations, only from Saviesa

DreamViewer

Saviesa DreamViewer is the perfect way to show you how the kitchen you like will look, in a shape and size, as close as possible to your actual kitchen. It will also show you the approximate cost, and how that cost changes based on the different options you select. Saviesa DreamViewer showcases over 350 kitchen designs in different shapes, sizes and material configurations.

DreamBuilder

Saviesa DreamBuilder makes the planning of your kitchen fast and easy. The app records your cooking style and storage habits, and based on your unique needs, plans your kitchen using the 5-zone concept. Unlike a catalogue, the app narrows down your search using filters and shows you only those accessory options that are perfect for you. Also, you get to see how they function in real time through interesting videos. All the data captured results in the app preparing a detailed design brief, which the designer works on, to deliver a kitchen only you could have dreamt of.

DreamPlayer

With Saviesa DreamPlayer, you can visualise your finished kitchen in lifesize and in 3D. With the specially designed projection system, we help you coordinate the six important elements of kitchen aesthetics; the wall colour, the shutter for your wall cabinet, the dado, the countertop, the shutter for your base cabinet and the skirting. Saviesa DreamPlayer makes the important task of coordination not only easy and quick, but enjoyable as well!

MODULAR KITCHENS

The kitchen is the heart of the home, that is why, we at Saviesa, have put a lot of thought into planning your kitchen. From the size of your family to the way you cook... every little detail is captured even before our designers begin to think design.

To get you started, we bring you six fascinating lines in different price ranges. Each line is a testimony to the best in design, material and finish. From the best in basics to the choice of the elite... you are sure to find your dream kitchen in here.

The 5-Zone Design Principle

'Zoning' the kitchen to suit the task is a good way to save time and shorten distances.
We divide your kitchen into 5 essential Zones:

Consumables | Non-Consumables | Cooking | Cleaning | Preparation

Each of the Zones has storage for the essential tools and food products related to that specific task, so you don't have to search for things all over the kitchen.

What's more, the Zones are arranged in a sequence following the tasks to be performed, making the workflow easy and fast.
Saviesa studies your cooking habits and designs your kitchen space so that it follows the 5-Zone design principle.

5-Zone design principle for different kitchen types

U-shape Kitchen

Island Kitchen

G-shape Kitchen

L-shape Kitchen

Galley Kitchen

One-counter Kitchen

Consumables

Non-Consumables

Cleaning

Preparation

Cooking

Includes area and appliances for your food, refrigerator, grain cabinets, drawers, etc.

Consumables

Non-Consumables

Includes your sink and dishwasher. The garbage unit is also placed here.

Cleaning

Your cooking preparation happens here, it includes chopping and mixing implements.

Preparation

Includes your stove, hob and may also include the oven, microwave or entire cooking range.

Cooking

PRACTICA

It's simple, yet stylish. Practica's handle-free shutters add an innovative touch. The highlight here is the open element which has the base cabinet colour. Adding an international touch is the runner system from GRASS, Austria and hinges from BLUM, Austria.

Features

- Handle-less wall shutters.
- Italian handles for base shutters.
- Soft-close hinges from BLUM, Austria
- SS 304 accessories with lifetime anti-rust warranty.
- Soft-close drawer system from GRASS Austria.
- Option to have open elements in base shutter colour.

GEOMETRICA

Geometrica gets its name from the geometric patterns engraved all across the wall shutters. These patterns make this kitchen a minimalistic work of art, leaving a lasting impression. Optionally, a highlight can be created by adding a glass cut running across the wall shutters. Geometrica is a kitchen for the efficient and uncomplicated. Neither loud nor quiet, just right.

Features

- PU Lace Shutters with engraved geometric patterns on wall shutters.
- Handle-less wall shutters.
- Soft-close hinges from BLUM, Austria.
- Soft-close drawer system from GRASS Austria.
- Option to have PU Lace Shutters on base units also.
- Option to have a highlighter small window running across the wall shutters.

A row of white upper wall cabinets. The second cabinet from the left has an open shelf containing three brown mugs. The third cabinet has an open shelf containing several clear glass tumblers. The fifth cabinet from the left also has an open shelf containing three brown mugs. The cabinets have a modern, minimalist design with horizontal lines near the bottom.

A long, narrow window with a white frame. On the windowsill, there are three small white pots, each containing a green plant. The window looks out onto a bright, overcast day.

A row of white lower wall cabinets with a black countertop. From left to right: a sink with a chrome faucet, a small white dish with three white eggs, a small white vase with a plant, a glass bowl of fruit, and a four-burner gas stove. The cabinets have a modern, minimalist design with horizontal lines near the top of the doors and drawers. The floor is covered in large, light-colored tiles.

CRYLICA

Take a leap over the ordinary and land in the space of Acrylics and Synchro Laminates. Crylica will make you believe that a kitchen can be more than just a place to cook in. The most endearing aspect of this kitchen is the open element with chamfered shelves that give ample opportunity to display all your precious crockery and vases.

Features

- Shutters in High Sheen Acrylic and Synchro Laminate combination.
- Striking open elements with chamfered shelves.
- Muted textile colours for carcasses.
- Handle-less wall shutters with Pull-grip mechanism.
- High-quality appliances.
- Soft-closing drawer systems from GRASS, Austria
- Option to have trendy designer legs instead of skirting below cabinets, for easy cleaning.

SCANDICA

Scandica is a gracefully designed kitchen with some striking features. A perfect design of a highly dependable product. The characteristic chamfered open elements and the lean, Gola Profile running through the length of the cabinets adds a unique character to this kitchen.

Features

- Shutters in high sheen Arylic and Synchro Laminate combination.
- Striking open elements with chamfered shelves.
- Handle-less wall shutters.
- Muted textile colours for carcasses.
- High-quality appliances.
- Drawer systems from GRASS, Austria.
- Option to have trendy designer legs instead of skirting below cabinets, for easy cleaning.
- Option to have base shutters with Gola Profile for handle-less shutter opening.

HARMONICA

Every element in this kitchen harmonises beautifully, like a melodious tune. The smooth swing of the lift-ups on the wall shutters complement the soft-closing of the base unit drawers. The glossy lacquered shutters in shelter glass design are quite a visual delight too. Accentuated with elegant light fixtures, this kitchen truly deserves the spotlight.

Features

- Lacquered Shutters in exclusive birch ply 21 mm, both sides painted; back with matt finish, front with matt / gloss finish.
- Textured wood-grain carcass and drawers.
- Lift-up systems and soft-closing drawers from BLUM, Austria.
- Mirror skirting to give a floating kitchen effect.
- Option to have French window style mesh glass design for wall shutters.
- Option to co-ordinate with Synchro Laminate shutters.
- Option to have Servo-Drive effortless shutter opening and closing.

CERAMICA

This top-of-the-line kitchen, will propel your kitchen ideas into the coming century. Simplistic and enchanting at the same time. The highlight, no doubt, is the Neolith ceramic shutters and countertop.

The minimalistic looks and subtle shades of this superb kitchen are matched only by the ruggedness and durability that ceramic brings to the party. Teamed with high-tech features like Servo-Drive, two-way lighting, built-in new age appliances and international storage accessories... Ceramica leaves nothing to desire.

Features

- Widest range of shutter finishes to choose from in Neolith, Glass and Lacquered Shutters. Choose a single finish or combine two.
- Textured wood-grain finish for carcasses.
- Handle-less shutters with Gola Profile for shutter opening.
- BLUM Legrabox soft-closing drawers.
- High-end European drawer organisers.
- Option to have mirror skirting to give a floating kitchen effect.
- Option to have Servo-Drive system for shutter opening and closing.
- Option to have an open section in Lacquered finish.

SavvyTech from Saviesa

Welcome to the future with Saviesa SavvyTech. There are new and modern ways to get organised in your kitchen. Smart ways to be efficient while cooking. SavvyTech from Saviesa is a whole new world of discipline, in the kitchen, that saves you time and energy. SavvyTech is set to blaze a trail in the modular kitchen industry, and here is your chance to be the trendsetter.

Kitchen Accessories & Appliances

Your modular kitchen should have the perfect combination of aesthetics and function, that resonates with your personality. Saviesa's wide range of components – ranging from Shutters, Accessories, Appliances, Hardware and Lights – will spoil you for choice.

MODULAR WARDROBES

Wardrobes have a special place in one's home. You store your favourite clothes and accessories in it.
And it only gets better when an expert artisan from Saviesa crafts it.

Along with Raumplus from Germany, Saviesa brings you world-class sliding & walk-in wardrobe hardware and accessories. With gliding doors, enough space to store in the wicker baskets, railings that let your clothes drape gracefully, and separate sections to pull out your shoes with a flip. You can also opt for just the doors to upgrade the look of your current wardrobe. A wardrobe from Saviesa will not be just a storage space, but an experience.

With seamless working components, Saviesa wardrobes will give you a sense of well-being and efficiency. And that's not all, the best part is you have an option of 6 different wardrobes to choose from. Each can be custom made, just for you.

By Saviesa

WALK-IN WARDROBES

With the walk-in wardrobe, Ecoline welcomes you to the dual world of space and beauty. Specially designed accessories keep each of your items of storage perfectly in place. Legno Walk-in Wardrobes are the next rung in comfort and luxury. With a variety of innovatively designed shelves, drawers, hanging files, rods, racks, and more. Truly, the complete wardrobe – all that you will need, is already incorporated!

SLIDING WARDROBES

The classic interior system enables various configurations. Tailor-made and matching any room environment, the Ecoline Sliding wardrobes from Saviesa offer drawers, pull-out shelves, hanging files and many more accessories. Linear and design-oriented, Legno Sliding systems are extremely stable, due to the thickness of the material of the sidewalls and shelves.

HINGED WARDROBES

Even the basic hinged wardrobe by Saviesa is a class apart. Made of highly durable ply, and fitted with high-quality hinges and channels, any wardrobe in the Essential range will stay pristine for a long time to come. Soft-closing wardrobe lifts, multifunctional storage boxes, shoe racks, woven basket drawers... there are many compelling reasons to desire the Enhanced range of Hinged Wardrobes.

SPACE-SAVING BEDS

Little homes are common in big cities, but now there is no need to compromise on luxury. Saviesa brings a range of innovative space-saving furniture that combines aesthetics, technology and comfort. Change your library unit into a soft and sturdy bed at night. Or change your bed into a study table during the day. There are many combinations you can choose from. Here are a few to consider.

OPLA

Now, this is a dream come true for every youngster in town. Study table or work station by day, and a cushy queen bed in the night, all in a modest space, that seems too good to be true.

FLAP BUNK BEDS

This simple and slim library unit transforms into two bunk beds, which is simply great for the children's room. They will finally have a space and beds they can call their own.

METROPOLIS

This beautiful wall unit, which houses your art and craft, simply slips into a cosy queen bed for guests. But don't blame us if they keep coming for sleepovers.

NUBILINE

Some people like it simple. Some like surprises. Some people like it mixed. This simple looking bed, doubles over as a spacious storage unit. Lift the bed, pick up your favourite blanket and slip into a sweet sleep on your comfy bed.

BELEZZA

Flaunt your plush sofa to your guests all through the day, and when tired of showing off, pull it down and a beautiful comfortable bed is ready for you to jump on and snooze. A boon for homes that are short on space... Belezza is just like its name - elegance with substance.

Saviesa - Crafting your home
