Guidance through Mastery
The credo of Saviesa

The first element—Guidance...
We work to understand you and your expectations. We listen to you— the space you want to build, the form and function you desire. We grasp your likes, your style, your thinking.

Then we help you bring your dream to life. By design thinking that captures the practical while loving the beauty.
To honour your story, and make the journey yours.

And the second—Mastery...
We study and experiment constantly, in each subject in our field. We search the world for the best materials. We interrogate experts in materials, machining, organisation, culinary science, quality control. We guzzle our products more than you ever will.
And we test them daily in real life... in homes, hotels, offices.

We master... so we can help you bring your dream to life.

At Saviesa...
We guide you... through mastery of our field.
Guidance through Mastery
The credo of Saviesa

The first element - Guidance...
We work to understand you and your expectations. We listen to you... the spaces you want to build; the form and function you desire. We grasp your likes, your style, your thinking.

Then we help you bring your dream to life. By design thinking that captures the practical while losing the beauty.

To know your story, and make the journey yours...

And the second - Mastery...
We study and experiment constantly, in each subject in our field. We scour the world for the best materials. We interrogate experts in materials, machining, organization, culinary science, quality control. We punish our products more than you ever will.

And we test them daily in real life... in homes, hotels, offices...

We master... so we can help you bring your dream to life...

At Saviesa...
We guide you... through mastery of our field.
How we GUIDE you to achieve your dream home

Gather
We listen to you. We ask key questions, note your requirements, we check your expectations, we perceive your style.

Understand
We comprehend and analyze your functional requirements, your aesthetic aspirations and your essential needs.

Ideate
We develop initial concepts and share them with you to outline your dream space and get your feedback.

Design
We develop and detail the concept into through detailed designs and quotations to match your needs and budget.

Execute
We execute flawlessly on what you’ve assessed on what you get. Manufacture at your own facility, delivery and installation—all done in time.

3 exciting innovations, only from Saviesa

Saviesa DreamViewer
Saviesa DreamViewer is the perfect way to show you how the kitchen you like will look, in a shape and size, as close as possible to your actual kitchen. It will also show you the approximate cost, and how that cost changes based on the different options you select. Saviesa DreamViewer showcases over 154 kitchen designs in different shapes, sizes and material configurations.

Saviesa DreamBuilder
Saviesa DreamBuilder makes the planning of your kitchen fast and easy. The app records your cooking style and routine habits, and based on your unique needs, plans your kitchen using the Lowe concept. Within a catalogue, the app narrows down the search for you and shows you only those design options that are perfect for you. Also, you get to see how they function in 3D through interesting images. All the data captured results in the app populating a detailed design brief, which the designer works on to deliver a kitchen only you could have dreamt of.

Saviesa DreamPlayer
With Saviesa DreamPlayer, you can visualize your finished kitchen in virtual and in 3D. With the specially designed projection system, we help you coordinate the six important elements of kitchen aesthetics: the wall colour, the cabinet for your wall cabinet, the island, the countertop, the storage for your base cabinet, and the flooring. Saviesa DreamPlayer makes the important task of coordination not only easy and quick, but enjoyable as well.

MODULAR KITCHENS

The kitchen is the heart of the home, that is why we at #Brand have put a lot of thought into planning your kitchen. From the size of your family to the way you cook... every little detail is captured even before our designers begin to think design.

To get you started, we bring you an fascinating lines in different price ranges. Each line is a testimony to the best in design, material and finish. From the best in basics to the choice of the elite... you are sure to find your dream kitchen in here.
The 5-Zone Design Principle

Zoning the kitchen to suit the task in a good way can save time and shorten distances.

We divide your kitchen into 5 essential ZONEs:

1. **Consumables** - Includes spices, rice, sugar, salt, etc.
2. **Non-Consumables** - Includes pots, pans, plates, bowls, etc.
3. **Cooking** - Includes stoves, ovens, microwaves, etc.
4. **Cleaning** - Includes cleaning supplies, a sink, etc.
5. **Preparation** - Includes chopping boards, knives, etc.

Each of the Zones has storage for the essential tools and food products related to that specific task, so you don’t have to search for things all over the kitchen.

What’s more, the Zones are arranged in a sequence following the tasks to be performed, making the workflow easy and fast. Function studies your cooking habits and designs your kitchen space so that it follows the 5-Zone design principle.

5-Zone Design principle for different kitchen types

- **L-shaped Kitchen**: Consumables on the left, Non-Consumables on the right, Cooking in the middle, Cleaning at the end, Preparation in the far corner.
- **Island Kitchen**: Consumables on one side, Non-Consumables on the other, Cooking in the middle, Cleaning and Preparation in the far corner.
- **Galley Kitchen**: Consumables and Non-Consumables on one side, Cooking and Cleaning on the other, Preparation in the far corner.
- **Open-plan Kitchen**: Consumables and Non-Consumables on one side, Cooking and Cleaning on the other, Preparation in the far corner.

Symbols used for efficient workflow:

- Consumables
- Non-Consumables
- Cooking
- Cleaning
- Preparation

Symbols for optional equipment:

- Additional utensils, tools, etc.
